

Farnek Middle East Consultancy Services

International asset consultancy, technology and sustainability services — delivered from the UAE.

One command centre. Every country. Every asset.

International Asset Assessment

CONDTEK AI condition assessment, verified asset registers, compliance surveys, FM maturity and cost benchmarking, energy and sustainability baselines, and a prioritised roadmap.

Digital Asset Management

Multi-country HITEK CAFM, IoT and BMS integration where available, local partner onboarding, executive dashboards, support and data management.

Central Command and FM Governance

24/7 monitoring from UAE Command & Control, SLA and KPI management, incident escalation, remote technical support, performance reporting and partner audits.

Sustainability and Net-Zero Services

Net-zero roadmaps, greenhouse gas baselines, energy and waste management through HITEK, LEED and BREEAM certification support, ESG reporting and Emirates Carbon offsetting.

FM Delivery via Local Partners

Farnek as the single contracting party, with vetted local delivery partners providing hard and soft FM under consistent SLAs, HITEK mobile and UAE Command & Control oversight.
